SUMMARY

Business Analytics graduate student and marketing technologist who has engineered enterprise-scale data workflows alongside hands-on B2C/B2B digital campaign management. Automated 80% of a quarterly RFP process supporting 200+ campaigns at DIRECTV Advertising and transformed 315B+ viewership records into a personalized analytics product. Skilled at translating raw performance data across GA4, Mixpanel, and major ad platforms into strategic recommendations for stakeholders.

EDUCATION

Baruch College — M.S., Business Analytics | Started Fall 2025

The City College of New York — B.A., Business Administration & Management | May 2025

NielsenIQ University — 12-week data insights program on analyzing consumer trends | Fall 2023

PROFESSIONAL EXPERIENCE

Media & Ad Technology Intern — DIRECTV Advertising

Jun 2026 – Aug 2026

- Engineered a Streamlit-In-Snowflake workflow platform with multi-template RFP parsing, programmatic Excel generation, configurable approval workflows, and external API integrations, automating the end-to-end RFP lifecycle across four business teams, supporting 200+ quarterly campaigns, driving 80% automation adoption, and eliminating ~1,200 manual handoffs per quarter
- Integrated Salesforce opportunity management via Salesforce APIs and designed a scalable Snowflake-native architecture requiring no infrastructure beyond existing Snowflake compute, reducing internal communication overhead by 75%, improving audience data retrieval from 15 minutes to under 10 seconds, and enabling seamless enterprise-scale workflow automation
- Developed DIRECTV's "Year in Review" experience by engineering large-scale analytics pipelines and full-stack Streamlit applications, transforming 315B+ viewership records into personalized insights, recommendations, and interactive visualizations through advanced SQL analytics, achieving sub-second query performance
- Designed and built business intelligence dashboards in Looker, integrating data from multiple explores to deliver actionable reporting, performance monitoring, and data-driven insights for business stakeholders

Digital Media Intern — Allied Global Marketing

Feb 2025 – Present

- Track and optimize B2C campaigns across TikTok, Meta, Snapchat, Google, YouTube, Performance Max, and Apple, improving ROI through budget pacing and performance analysis.
- Compile weekly, monthly, and YoY performance reports to inform client strategy decisions.

Digital Marketing Intern — Burford Capital

Jun 2024 – Aug 2024

- Analyzed 3 years of LinkedIn Ads data and restructured campaign groups to improve B2B/B2C targeting and engagement.
- Integrated LinkedIn and GTM traffic data to consolidate reporting; used email and SEO performance trends to guide messaging and landing page improvements.

Marketing Strategist Intern — InvestiFi

Jun 2023 – Mar 2024

- Built a Mixpanel analytics dashboard tracking client transactions, traffic, and session data for a fintech investment platform serving credit unions and banks.
- Delivered performance and bitcoin market insights guiding client ad spend; tracked GA4/GTM metrics and UTM implementation through a site re-brand.
